Local Residents To Be Arrested For a Good Cause

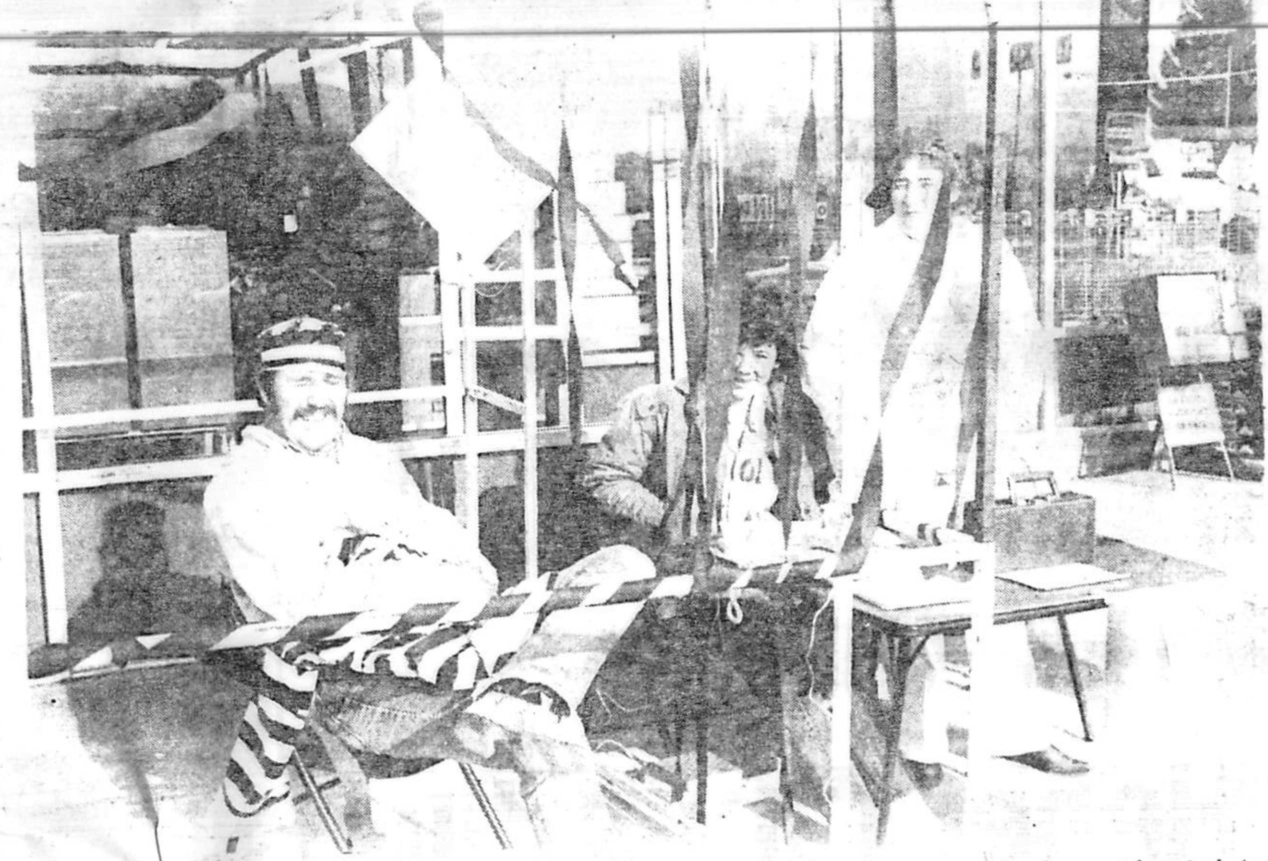

Some of Heber Valley's finest community leaders will be arrested Friday afternoon and held in retaining cells until they can raise bail.

Sounds scandelous, but actually it is a fund raiser sponsored by Heber Valley Care Center to help the Alzheimer's Disease and Related Disorders Association. The money raised as "bail" will be donated for research and for the creation of more support groups for those whose lives are affected by Alzheimer's disease.

Those arrested will be held in small cells in the parking lots of Day's Market and Safeway from 4:00 to 6:00 p.m. You are welcome to come down and gawk at the infamous inmates and make donations toward their "bail". (It's tax deductable) They will be making phone calls trying to raise bail and phone calls for donations will also be taken at Heber Valley Care Center 654-0521 and 654-4417.

Many people in this valley have had the pain and frustration of Alzheimer's disease touch their lives. The sponsors at Heber Valley Care Center not only hope that you will enjoy this event but that you will be generous in the support of those fighting this disease.

Heber Valley Care Center Hosts Special Fund Raiser

The jails were filled Friday as members of the community "served time" in two mock jails that were set up at Day's and Safeway's to holder desperate members of the valley until bail could be raised. All of the money that was raised was donated to Alzheimer's Disease and related disorders foundation. the fund raiser was sponsored by the Heber Valley Care Center.

On Friday April 18, 1986 a special fund raiser sponsored by the Heber Valley Care Center was held on the parking lots of Safeway and Day's Thriftway.

Several prominent community leaders were arrested and escorted to mock jail cells by the Wasatch County Sheriff's Department and the Heber City Police Department.

Those who participated as volunteer inmates during the two hour event were: Charles Maynard of Zions First National Bank, Ken Baird, President of the Rotary Club, Dick Buys of the Wasatch Wave, County Attorney Joe Tesch, Kolleen Davis of radio station KLVR, Wasatch High student body president Johnny Kelly, Ollie Clyde Independent Insurance Agent, and Stan Magleby manager of the Heber Valley Care Center.

All proceeds will be donated to the Alzheimer's Disease and Related Disorders Association. The presentation will take place in Salt Lake City on May 14, 1986.

Alzheimer's or Senile Dementia is a neurological disorder that affects the brain cells. Many residents of Heber Valley have been affected by Alzheimer's disease. The donations from the fund raiser will be used to research the disease and its related disorders.

Those on hand to aid the special fund raiser were Steve Sherman, Pat Gast, Greg Charlesworth, Kirstin Severson, Janet Smith and Nada Mair all of whom are employees or volunteers at the Care Center.

Mayor Gordon Mendenhall paid a visit to the mock inmates and contributed to their "bail". Even a two year old Heber City boy contributed twenty five cents to the cause.

The Heber Valley Care Center thanks all those who participated in making the fund raiser for Alzheimer's a success. Special appreciation goes out to Ralph Duke manager of Safeway, and Alan Day President of Wasatch County Business Ass iation in cooperation with t worthy cause.
